The Spectrum Sports™ Drop A Rock® was introduced in 1998 as the first 4-person mobile climbing wall on the market. Our Automatic Belay system, which is exclusive to and manufactured by Spectrum Sports™, is the only truly redundant belaying system in existence allowing for safe, fun, solo climbing. The Drop a Rock® is specifically designed to look and feel like actual rock without using an abrasive wall surface so that you can accommodate the full age range of climbers. We now offer the Drop A Rock® in 24 foot and 32 foot walls, available in both mobile or stationary options. The Drop A Rock® is great for birthday parties, carnivals or fairs, grand opening events, special promotions, team building events, nightclubs, etc. The Drop a Rock® has been the trendsetter for ALL climbing walls on the market today.
